Dimensions Width: 19" Height: 26 ¼"		

Moveable Backrest

Enhance your sauna sessions with the ergonomic support of our moveable backrest, designed by Dr. Raleigh Duncan, Chiropractic Physician and founder of Clearlight®. This elegant accessory helps you relax even deeper into your sauna experience.

Features & Compatibility

Compatibility

Compatible with all Clearlight® Sanctuary and Outdoor saunas.

Doctor Designed

Designed for sidewall placement on flat rails for optimal support.

Instructions for Use

Your backrest arrives fully assembled. To use:

1. Place the backrest inside your sauna.
2. Position it so the foot sits flat on the bench towards the sauna wall and the back of the backrest rests flat against the sauna wall.
3. Sit back against the backrest and adjust as needed for maximum comfort.

Placement Tips

While recommended for sidewall placement because the walls are flat, the backrest can also be used on the back wall. However, some maneuvering may be required to avoid interference with the built-in backrest.
