

ONE TO ONE, PARTNER OR TRIAD COACHING

PERSONALIZED CONVERSATIONS TO ADD CLARITY

love and joy

"What an absolute delight it was to speak with you today! Thank you so much for the inspiration and information. I can't wait to play with some of the practical applications you recommended, including using items within my class environment to represent ideas and stimulate metaphorical thinking!"

"Thank you so much for all the incredible support and mentoring you have given me during our sessions together. It's been truly inspiring for me to gain a new understanding and approach to teaching."

— CHARLOTTE SAKAKI, VICE PRINCIPAL

WHAT CAN WE WORK ON IN COACHING?

Teaching Ideas

**A LEARNING EXPERIENCE YOU'RE PLANNING · A QUESTION IN YOUR PRACTICE ·
AN INQUIRY YOU WANT TO DEEPEN**

Bring a learning experience, unit, inquiry, or idea you're developing—or something in your teaching that simply isn't working the way you hoped. We can clarify what you want learners to understand, explore creative possibilities, work through constraints, and shape an approach that feels meaningful, engaging, and doable in your context.

Leadership Challenges

**A CHALLENGE YOU'RE NAVIGATING · AN IDEA TAKING SHAPE · A PROJECT OR
DECISION THAT COULD BENEFIT FROM ANOTHER PERSPECTIVE**

Bring a decision, tension, initiative, or possibility you're navigating in your leadership. We can unpack what's happening, consider the people and perspectives involved, surface what may be getting in the way, and clarify what matters most. You'll leave with greater perspective and a thoughtful way forward.

Graduate Studies

**A RESEARCH QUESTION OR CONTEXT · A MASTER'S OR DOCTORAL PROJECT ·
AN APPLICATION TO A GRADUATE PROGRAM**

Bring the work that is occupying your mind: an application, research question, proposal, literature review, methodology, thesis or dissertation—or an idea you're struggling to articulate. We can talk through your thinking, explore theoretical and methodological connections, find the through-line, and identify concrete next steps.

Presentations & Projects

CREATING OFFERINGS FOR OTHERS THROUGH TEXT, IMAGE, AND PRESENCE

Bring a piece of writing, research, presentation, publication, or scholarly idea you want to move forward. We can work directly with what you have—messy notes and emerging ideas are welcome—to strengthen the thinking, clarify your contribution, find structure, and turn what's swirling into something you can act on.

For 60–90 minutes virtually, you have my full attention, intuition, experience, and quick thinking. We focus on what matters most, follow the thinking where it leads, and finish with a concrete next step.

YOU'VE GOT YOUR TEAM, AND I GOT YOU!
