Soft structure and relaxed modernism

The Datum Bed is an expression of quiet comfort and refined ease, inspired by softened mid-century silhouettes and reinterpreted for contemporary living. Its low, grounded stance creates an immediate sense of calm, inviting rest through proportion rather than ornament.

A gently rounded upholstered headboard anchors the piece, offering a soft, enveloping presence while maintaining a clean architectural clarity. The mattress rests on a streamlined platform base, reinforcing the bed's modern and grounded profile.

The artistic detail reveals itself at the foot of the platform, where a routed square element forms both the legs and the visual base of the bed. This subtle architectural gesture introduces depth and rhythm, transforming a functional support into a sculptural moment.

Casual yet sophisticated, the Datum Bed offers a contemporary approach to the sleeping experience—one that balances comfort with intention, softness with structure. As part of the Datum Collection, it reflects PARISII ethos of timeless ease and thoughtful simplicity.
