For Occupied Staging

Things to consider while making the most of your space—while you live in it

- **Furniture Storage** - Are you open to storing pieces if recommended? If yes, how much?
- **Daily Living Needs** - Which rooms and furniture pieces need to stay in use?
- **Permission to Rearrange** - Can we move furniture, art, and accessories to enhance the presentation?

Our goal is to create a plan that balances livability with market-ready presentation.
