PRICING GUIDE

WILDLY  ELOPE

WELCOME!

I'M SARA

I'm so excited that you're here and truly honored to be considered to document such an important experience in your lives. Your elopement is about so much more than beautiful photos—it's an opportunity to create a day that feels entirely your own. Maybe that means exchanging vows somewhere wild and remote, exploring a place you've always dreamed of visiting, sharing the day with a handful of your favorite people, or simply slowing down and choosing to experience it all together.

My heart is in documenting those moments honestly and intentionally; from the quiet anticipation and little in-between moments to the adventure, emotion, and celebration that unfold along the way. The photographs matter, of course, but so does everything that happens in order to create them.

That's why my role goes far beyond simply showing up with a camera. I'm here to help you turn what you're imagining into an experience that actually works; from finding a location that feels like you and navigating logistics to shaping a timeline that gives you room to explore, breathe, and be fully present.

I know planning an elopement can come with a surprising number of decisions, especially when you're doing things a little differently. This guide is here to make the process feel a little easier. Inside, you'll find everything you need to know about working together, the experience you can expect, and the different ways we can document your story.

More than anything, I want you to look back and remember not only how your elopement looked, but how it felt—the place, the people, the adventure, the quiet moments, and all of the pieces you didn't even realize you'd want to remember.

WITH LOVE, SARA

WHAT TO EXPECT

BOOKING CALL

We'll talk through your vision, choose the collection that best fits your plans, answer any questions, and make everything official. Once your contract and initial payments are complete, your date is yours and the fun begins.

PLANNING

This is where the ideas start becoming a real experience. Together, we'll explore locations, build an intentional timeline, navigate logistics, talk through vendors and permits when needed, and leave plenty of room for adventure, spontaneity, and actually enjoying your day.

GETTING TO KNOW YOU

Before we start planning, I want to know what makes the two of you you. We'll talk about your story, what you're dreaming up, what matters most, and, just as importantly, how you want your elopement to **feel**.

YOUR ELOPEMENT

When the day arrives, you shouldn't have to worry about what's next. I'll be there not only to document it, but to offer calm, grounded guidance along the way—so you can slow down, be yourselves, and experience everything you've spent so much time dreaming about.

KEEPSAKES

Your photographs deserve a life beyond the screen. Depending on your collection and chosen additions, your story may live on through 35mm film, Super 8, a handcrafted album, or other tangible keepsakes created to help you return to this experience for years to come.

SNEAK PEEKS + GALLERY DELIVERY

You can expect a first look at your photographs within one week of your elopement. Your complete, thoughtfully curated gallery will be delivered within 8–12 weeks, preserving everything from the big moments to the ones you didn't even realize were happening.

THE PROCESS

SCHEDULE A CALL

We'll coordinate a date + time to have our first initial meeting and get to know you both! We'll talk about the two of you, what you're dreaming up, what matters most, and how you want your elopement to feel. You don't need to have everything figured out yet—that's part of what I'm here for.

MAKE IT OFFICIAL

Once we've found the collection that best fits your plans, I'll send over your contract and booking details. Your date is officially reserved once your contract is signed and initial payments are complete —then we can start bringing everything to life.

PLANNING

This is where your ideas begin taking shape. From finding the right location and building your timeline to navigating vendors, permits, logistics, and all the little details in between, I'll guide you through the process so your elopement feels intentional, effortless, and completely your own.

YOUR GREATEST
ADVENTURE AWAITS

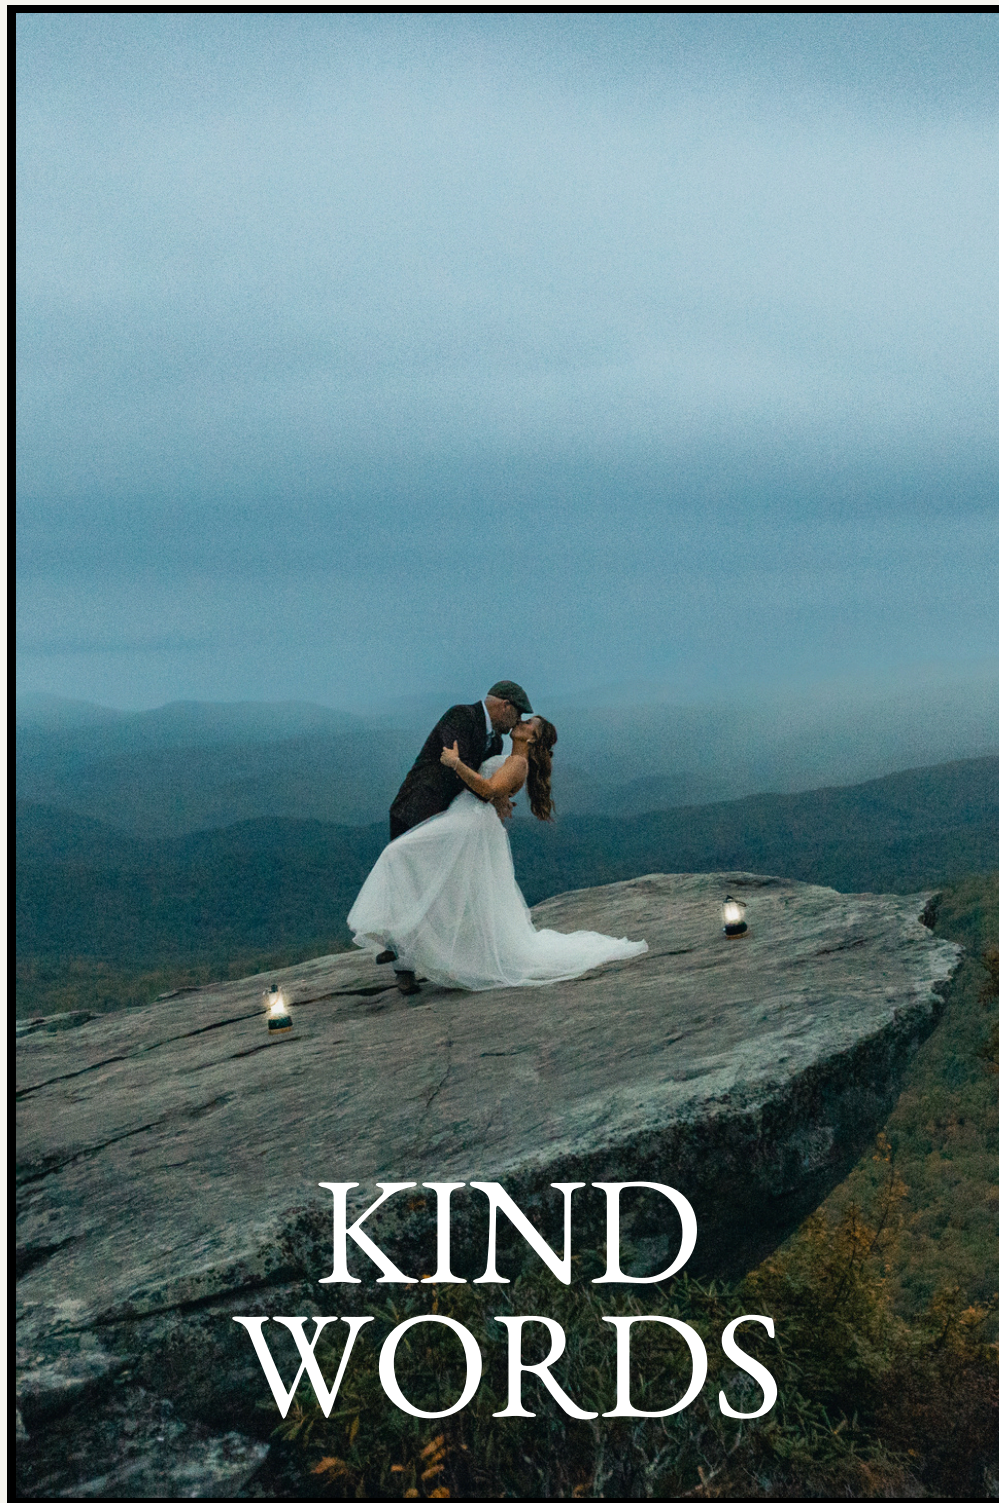

KIND WORDS

"We were lucky enough to have Sara shoot both our engagement and wedding photos and were floored with the results, not just in the quality of the photos, but her partnership exceeded our expectations every step of the way. Sara was extremely thoughtful in her approach from planning to day-of. She was so organized, communicated thoughtfully, and had a really efficient shoot day process. Sara really knows her audience. She's a meticulous planner and customizes the shoot to what you want from it, while understanding what you need from it, too. She felt like a partner, not just a photographer. She was invested in our satisfaction in a personal way that was exemplified with the details about us she had committed to memory, the little snacks she had ready if we needed anything during the shoot, and just her positive demeanor that made us feel so special. If you're lucky enough to have the opportunity to work with Sara, take it. Her eye for the perfect picture is more than enough to justify working with her, but it's undoubtedly all the small thoughtful touches that made working with Sara such a wonderful experience."

"I cannot recommend Sara enough! From the start she was professional, kind, and great with communication. We knew we wanted something different than just your standard, posed photos. We wanted photos that were unique and reflected our love for the outdoors in some of our favorite hiking spots. Not only did Sara meet our expectations, she exceeded them far beyond what we could've imagined! We received sneak peaks so fast and our full gallery was delivered right on time. Sara's professionalism, and editing style are so beautiful! Thank you so much Sara for this amazing experience and for giving us these beautiful memories that we will treasure forever!"

COLLECTIONS

More Than Photography Coverage

Every collection includes so much more than the hours I spend behind the camera.

Long before your wedding day, we'll work together to understand what matters most to you, build a photography timeline that leaves room to actually experience your day, and talk through locations, logistics, family portraits, and all the little details that help everything flow naturally.

Afterward, I carefully hand-select and individually edit your photographs to create a finished gallery that tells the full story—not just the obvious moments, but the quiet, emotional, wonderfully unplanned ones in between.

From our first planning conversation to the final gallery in your hands, my goal is to give you more than beautiful photographs. I want you to feel supported, prepared, and completely present for the experience itself.

FREQUENTLY ASKED QUESTIONS

DO YOU HELP WITH PLANNING AND LOGISTICS?

Absolutely! I'm here for so much more than simply showing up with a camera. From building a photography-friendly timeline and scouting locations to vendor recommendations, permits, lodging suggestions, and all of those little logistical questions that pop up along the way, I'm here to help make the process feel as easy and stress-free as possible.

For larger or more traditional weddings, a dedicated planner or coordinator may be recommended depending on your guest count and the logistics of your day. I'll work alongside your planning team to make sure everything flows beautifully while giving you the space to actually be present and enjoy your wedding.

DO YOU TRAVEL

Absolutely! Travel is a huge part of what I do, and I'm available wherever your story takes you—from tucked-away mountain towns to coastlines, national parks, and destinations across the country and beyond.

Travel is included with **The Feature**, **The Epic**, and **The Legacy**, so there are no surprise travel fees added to your collection. **The Intimate Edit includes travel throughout the East Coast; destinations beyond the East Coast may require a custom travel quote.**

If your plans involve something especially remote or logistically unique, we'll talk through those details together from the beginning so you know exactly what to expect.

DO WE NEED TO KNOW WHERE WE WANT TO ELOPE BEFORE REACHING OUT?

Not at all! Some couples come to me with an exact location already chosen, while others simply know how they want their day to feel. If you're still deciding, I'll help you explore destinations and locations that fit your vision, priorities, accessibility, season, guest count, and the kind of experience you want to have.

WHAT IF WE WANT BOTH PHOTOGRAPHY AND VIDEOGRAPHY?

You can absolutely have both! When you choose a collection that includes photography and videography, I bring along a trusted creative partner so we can document your day fully without either experience competing for attention.

WHAT HAPPENS IF THE WEATHER CHANGES?

Weather is part of the adventure, and we'll keep an eye on conditions as your elopement approaches. I'll help you build a flexible plan with backup options when needed, and we can adjust timing or locations if conditions change. A little rain, wind, fog, or snow doesn't mean the day is ruined—sometimes it becomes part of what makes the experience unforgettable.

WHEN WILL WE RECEIVE OUR PHOTOS AND FILMS?

Your fully edited gallery is typically delivered within 8–12 weeks of your elopement. Film deliverables may follow a slightly different timeline depending on processing and production. If your collection includes 35mm or Super 8, those pieces are thoughtfully incorporated into your final experience as they become available.

Once you've chosen your collection, I'll send over your contract and booking details. As soon as everything is signed and your initial payments are complete, your date is officially yours!

STEP THREE LET'S CREATE SOMETHING WILDLY YOURS

THANK YOU!

Thank you so much for taking the time to explore my wedding collections and for considering me to document such an important day in your lives. I know choosing the person who will preserve these memories is a big decision, and it would truly be an honor to be invited into your story. More than anything, I want your wedding day to feel like yours filled with the people you love, the traditions and moments that mean the most, and plenty of space to simply be present and take it all in.

From the planning that happens long before your wedding to the quiet moments, happy tears, family hugs, and celebration that fill the day itself, I'll be there to document it with intention and care. And years from now, I hope your photographs do more than remind you of what everything looked like.

I hope they bring you right back to how it felt. I can't wait to hear what you're dreaming up.

With care,
Sara
See you in the WILD.
