Strength and ease, shaped for creative living

The Datum Desk introduces structure and clarity into the PARISII collection through an architectural yet relaxed silhouette. A sculptural curved leg defines one side of the desk, balanced by a functional pedestal with integrated file and pencil drawers. Three sides of the pedestal are clad in horizontally routed wood, creating rhythm and depth.

Finished in a refined two-tone palette—the desk balances strength and softness with ease. A 72"L version is also available, designed for workspaces that value calm, focus, and thoughtful form.
