Branding & Web Design for Boutique Studios

For many prospective clients, your website is the first introduction to your studio. Long before someone steps through your doors, they'll form an impression through your brand, imagery, and online experience.

Studio OAX creates brands and websites that reflect the quality of the physical space you've so carefully crafted - with your booking system built right in.

Services

The Foundational Studio

For studios in their early stages

A fully custom brand identity and a website tailored from our existing studio template - a refined, user-friendly home that feels uniquely yours, ready in less time.

The Signature Studio

For established studios

For established studios ready for a fully bespoke experience. We craft your brand, then design your website from the ground up around your studio's unique aesthetic, community and needs.

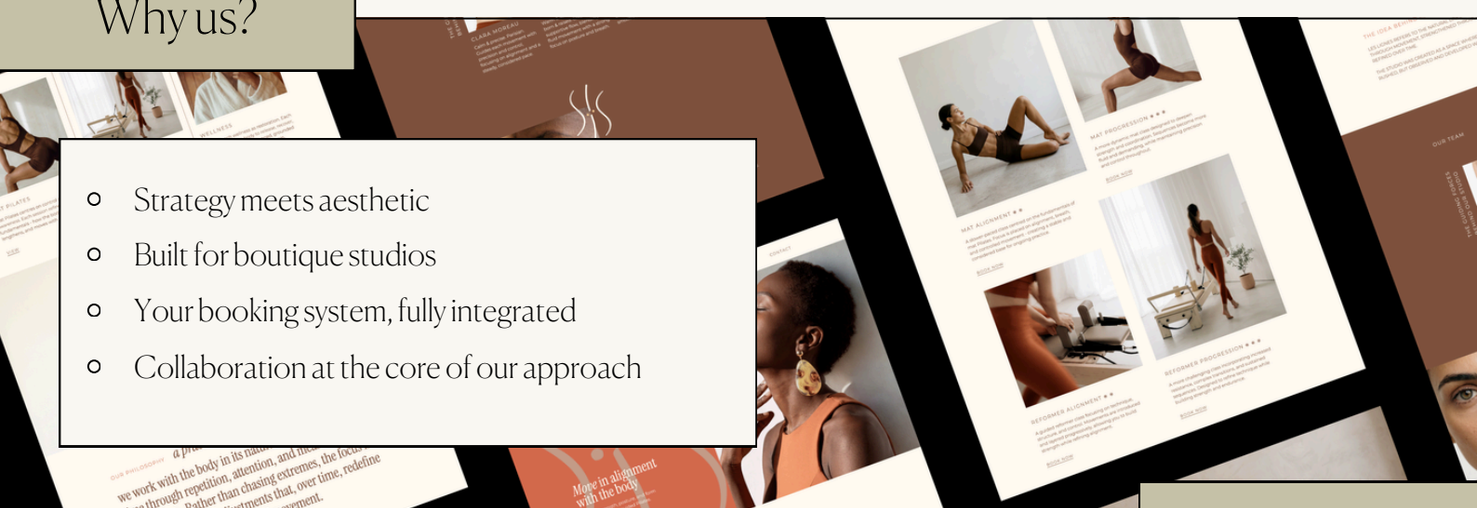

The Studio Template

The DIY route

For studio owners who prefer to do it themselves. A Showit template designed for boutique studios, with booking integration and a video tutorial library. Immediate access.
