

Full Spectrum Sanctuary C by Clearlight®

Features

Therapeutic Far Infrared Heaters

Clearlight's exclusive True Wave® Far Infrared Heaters are the only patented low EMF heaters on the market. True Wave's combination carbon/ceramic low EMF/ELF heaters surround you in healing infrared heat.

500 Watt True Wave® Full Spectrum Infrared Heaters

Our full spectrum near, mid and far infrared heaters deliver over 20 times the power of the nearest leading competitor. Our patented heating system allows for the deepest penetration with peak performance for the best results.

Doctor Designed Ergonomic Bench

Relax in comfort with our reversible bench. The extra deep bench is ergonomic on one side and flat on the other for maximum comfort. The bench can be flipped at any time.

Italian Inspired Design & Glass Roof

The open feel and beautiful design of your Sanctuary sauna will complement every room.

Beautiful Accent Lights

Energy efficient LED lights highlight the beauty of your sauna while providing gentle ambient lighting.

Charging & Audio Station

Charge your smart device inside the sauna and connect your favorite audio device with Bluetooth or the included MP3 jack.

Built-in Ergonomic Backrest

Relax close to the soothing infrared heat against the Chiropractor designed built-in ergonomic backrest.

Combination Door Handle/Tablet Cradle For Easy Media Viewing

Place your tablet on the door handle for easy viewing of your favorite shows or movies.

Exclusive Under Floor Foot Heater

All Clearlight Sanctuary Saunas include a heater underneath the wood floor to enhance your sauna session.

Enhanced Audio Sound System

Bluetooth and AUX inputs makes it easy to connect and listen to your audio devices.

Digital Keypad Controls

Digital keypad controls temperature, time, lights, heater intensity and reservation mode.

Upgraded Chromotherapy

Your Sanctuary sauna comes with our upgraded healing Chromotherapy. Choose from one of twelve colors or auto-cycle through all color tones.

Smart Device Control (Optional)

Log in from your smart device and remotely operate your sauna.

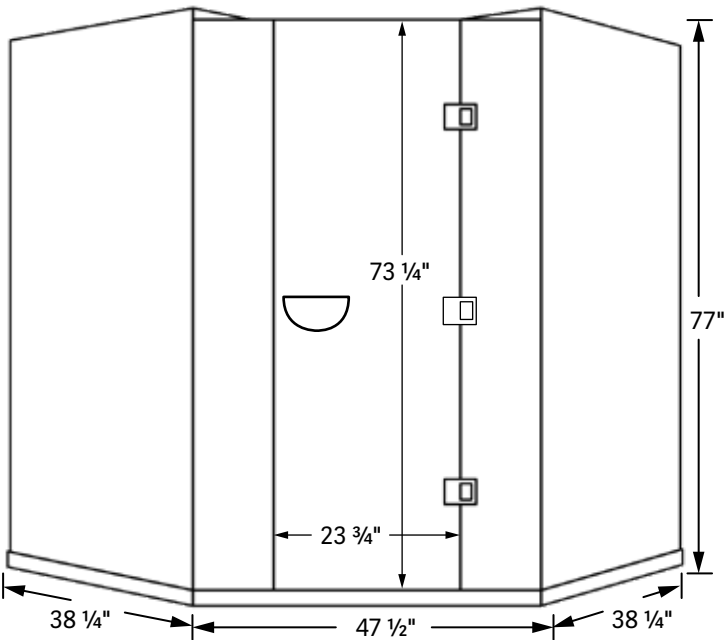

Full Spectrum Sanctuary C by Clearlight®

Installation Notes:

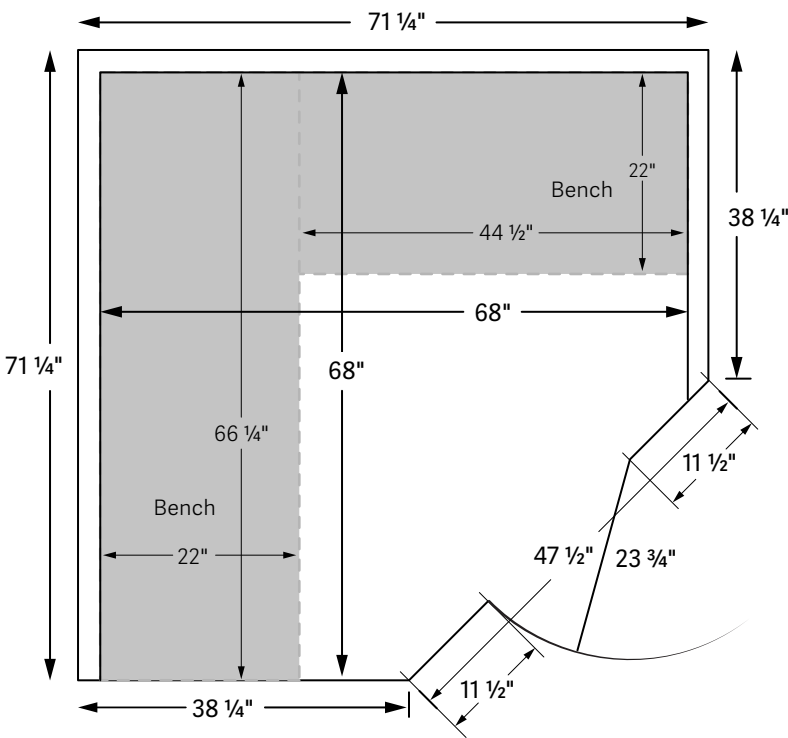

If you plan to build the sauna into an enclosed area, please contact your Infrared Sauna Specialist to ensure proper installation clearance and service access.

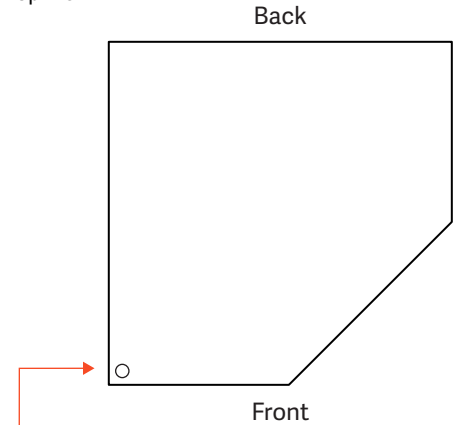

** See last page for full details.*

Full Spectrum Sanctuary C by Clearlight®

Individual panel sizes, laying flat, in inches.

Panel	Length	Width	Height
Wood Roof	66 ¼	66 ¼	3
Floor	71 ½	38 ¼	2 ½
Left Side	75 ½	38	4
Right Side	75 ½	38	4
Back Wall (Left)	75 ½	68 ½	4 ¼
Back Wall (Right)	75 ½	68 ¼	4 ¼

Attention: Make sure largest panel can fit through all access points from location entrance to sauna set up location.

Electrical Wire Requirements:

- 15 Amp saunas are 14 AWG
- 20 Amp saunas are 12 AWG
- Single Phase / 3 wire: 2 x live/ground - for 240V

Installation and Clearance Requirements

Your sauna is designed as a standalone unit and must be fully accessible on all sides and above for any service related needs.

Minimum Installation Requirements (for proper setup and airflow):

- 4 inches of clearance on all sides
- 6–8 inches of overhead clearance is recommended
- If the ceiling is less than 8 feet tall, please discuss your installation with a Sauna Specialist.

*These clearances allow for basic airflow and safe installation. Additional space may be needed if not professionally installed by our recommended 3rd party.

Customer Responsibility

If service is needed, the sauna must be fully accessible on all sides and the top. The customer is responsible for moving or removing any surrounding structures or facades to provide necessary access.

Add On

Can't have both upgrade heater and Red Light simultaneously.

Surface Requirements

Make sure sauna is placed on a level surface

Electrical Options (When Adding a Red Light Therapy CORE Tower)

When using the sauna and Red Light Therapy CORE Tower at the same time, there are two electrical setup options:

Option 1: Single Outlet Upgrade (20A Required)

Use a 20 amp outlet to power both the sauna and CORE Tower from the same outlet.

Plug Required: **NEMA 6-20P**

Option 2: Separate Circuits

Power the sauna using a 15 amp outlet
Power the CORE Tower using a standard 15 amp outlet
Each outlet must be on a separate electrical breaker

Important Note (Upgraded Heater):

If the Upgraded Heater is added, Option 1 is required (Option 2 not compatible).
The sauna cannot run the Upgraded Heater and CORE Tower at the same time.

CORE Tower Power

100–240V AC | 50–60 Hz | 200W
Wall adapter cord: 70" L (fitting: 2.5")
