#1 SMALL BATCH PROCESSOR IN NEW YORK STATE
#1 CHOCOLATE MILK IN NEW YORK STATE
-NY STATE DEPT OF AG + MARKETS, 2022

King Brothers Dairy

Responsible dairy done right.

Running a single-source operation means we cold-separate and bottle our milk just yards away from our herd. The only milk that goes into King Brothers Dairy products comes from our cows, fed and cared for on our century-farm in Upstate New York. This gives us big bonus points in the sustainability department. Our cows aren't just family members- we track the ancestry of our herd to ensure our dairy remains the highest possible quality. A healthier herd makes for happier cows, and tastier milk.

PURE, CREAMY & RICH

The reviews are in - there's a reason the New York State Department of Agriculture and Markets awarded King Brothers Dairy gold in the Fluid Milk category for Small Processors. Our Whole Milk is richer and creamier, resulting in an amazing taste. Our Chocolate Milk? It was named for Best in New York State.
