PROFESSIONAL EXPERIENCE

Action & Freelance Camera Work: 2020 - Current

Professional Concert and Festival FPV Photography

- Capture stunning imagery of dj's/artists on stage and concertgoers with masterful angles using stage lighting or flash.
- Monitoring the schedule for specialized events to capture the essence of the overall experience.
- Edit and finalize imagery in a timely manner once the event is completed, or on site if required.

Professional Architectural Photography for Real Estate

- Expert planning to understand the client's preferences for the property, including specific angles to fully capture each room.
- Usage of a wide-angle lens to create masterful images of the property.
- Monitored communication, project timelines, and deliverables.

Professional Wedding Photography and Videography

- Collaborated with clients to understand their vision and preferences, capturing candid moments for a memorable experience.
- Oversaw full photo and video workflow, on-site coordination, and post-production, ensuring delivery of high-quality images.
- Adapted to dynamic situations, seamlessly capturing key moments, from intimate ceremonies to large celebrations.

Professional Skiing and Snowboarding Action Photography

- Professional planning, including pre-ski trail mapping, different jump paths, and untouched line mapping for the best shots.
- Camera setup with a long-range lens and a wide-angle lens to capture multiple angles and remarkable portraits.
- High-quality pictures of skiers and snowboarders in various stunning positions.

Professional Dance Portraiture

- Camera tethered to a computer with auto-organization from Capture One to an external SSD using Tour-pro Software.
- Professional stage light set up using strip lights, rotating heads, and trophy lights.
- High-quality portraits of dancers using a professional camera and lens.

Professional Portraits

- Established grounds for a pop-up studio and effectively executed a standard booth setup with proper lighting and backdrops.
- Captured captivating images with playful props that support the visual concept of each backdrop.
- Monitored communication, project timelines, and deliverables.

FPV/UAV Pilot: 2020 - Current

Professional Concert and Festival FPV Videography

- Maintain and troubleshoot FPV drone equipment, following standard safety precautions and flight setup procedures.
- Collaborate with clients to understand the vision of their story and maximize results for high-quality deliverables.
- Plan and execute FPV drone flights to capture dynamic and immersive aerial footage.

Professional Architectural FPV for Real Estate

- Flight pathing to capture the client's vision for the property, specializing how the client wants the one shot to look.
- Usage of a 155-degree field of view to capture the rooms in their entirety.
- Monitored communication, project timelines, and deliverables.

Fire Dancing: 2020 - Current

Fire Spinning for EDM Festivals and Jam Band Festivals

- Developed captivating movements with fire to create stunning visuals to enhance the concertgoers overall experience.
- Established a performance area that is both highly visible and safe for concertgoers.
- Expert fire safety within view of performance area.
