

TORONTO INTERNATIONAL ACADEMY

**APRIL 2026
NEWS LETTER**

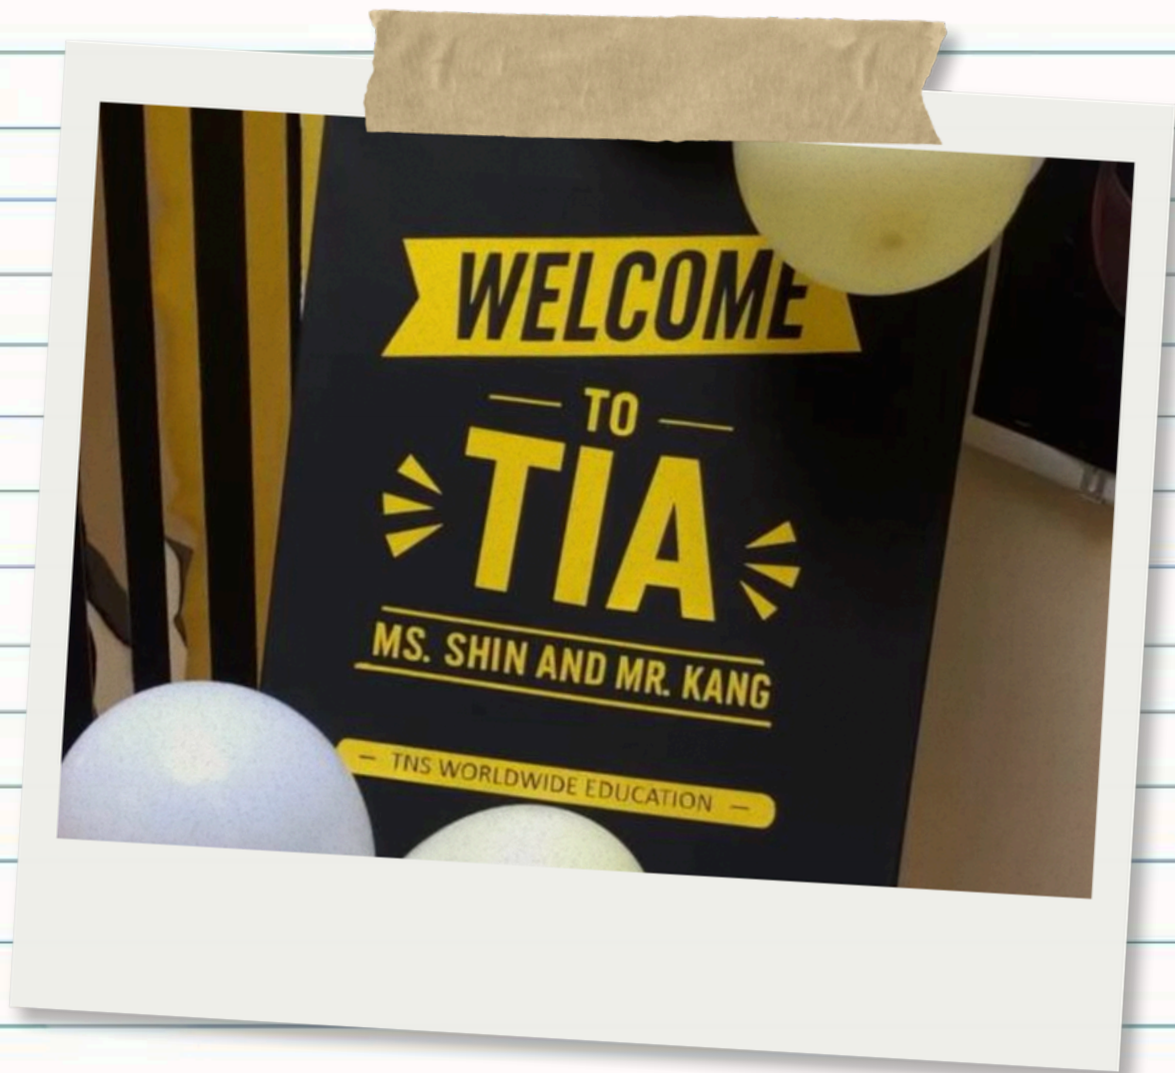

Guestspeaker At TIA Career Class

April was a dynamic and forward-looking month at TIA, filled with opportunities for learning, growth, and future planning. In our Career Studies classes, students had the privilege of welcoming guest speakers who shared their personal career journeys and professional experiences. These sessions offered valuable insights into different industries and inspired students to think more deeply about their own future paths.

Spring OSSLT

April also marked the Spring OSSLT, an important milestone for many students. With preparation and support from teachers, students approached the test with confidence and determination, demonstrating their literacy skills and academic progress.

TNS Education Agent

We were also honored to welcome representatives from TNS, the number one education agent in Korea, to our campus. Their visit strengthened our international connections and provided valuable guidance for students interested in global education opportunities.
