

Full Spectrum Heater Upgrade by Clearlight®

Enhance your Clearlight® Infrared Sauna session by adding an additional Full Spectrum Infrared Heater to your sauna. This powerful 300-watt heater is attached to the door of your sauna and is designed to deliver deep, penetrating infrared heat maximizing the benefits of your sauna sessions. This advanced heater provides full spectrum coverage, including near, mid, and far infrared, and boosts the temperature inside your sauna.

Whether you're looking to enhance muscle relaxation, reduce inflammation, or accelerate recovery, the addition of this heater will supercharge your sauna session, helping to get results in less time.

Designed for seamless integration, the Full Spectrum Upgrade Heater plugs into a receptacle already built into your Clearlight Sauna. Compatible with all Clearlight Infrared Sauna models, installation takes less than 10 minutes. Whether you're aiming for deeper relaxation, better detoxification, or more intense heat therapy, this heater is the perfect addition to any Clearlight Infrared Sauna.

Benefits:

Enhanced Muscle Relaxation: Deep infrared heat soothes tight muscles and aids in recovery.

Improved Circulation: Infrared heat stimulates blood flow, enhancing cardiovascular health.

Reduced Inflammation: Infrared heat penetrates deeply into tissues, helping to reduce inflammation and relieve discomfort.

Increased Detoxification: Encourages sweating to help eliminate toxins from the body.

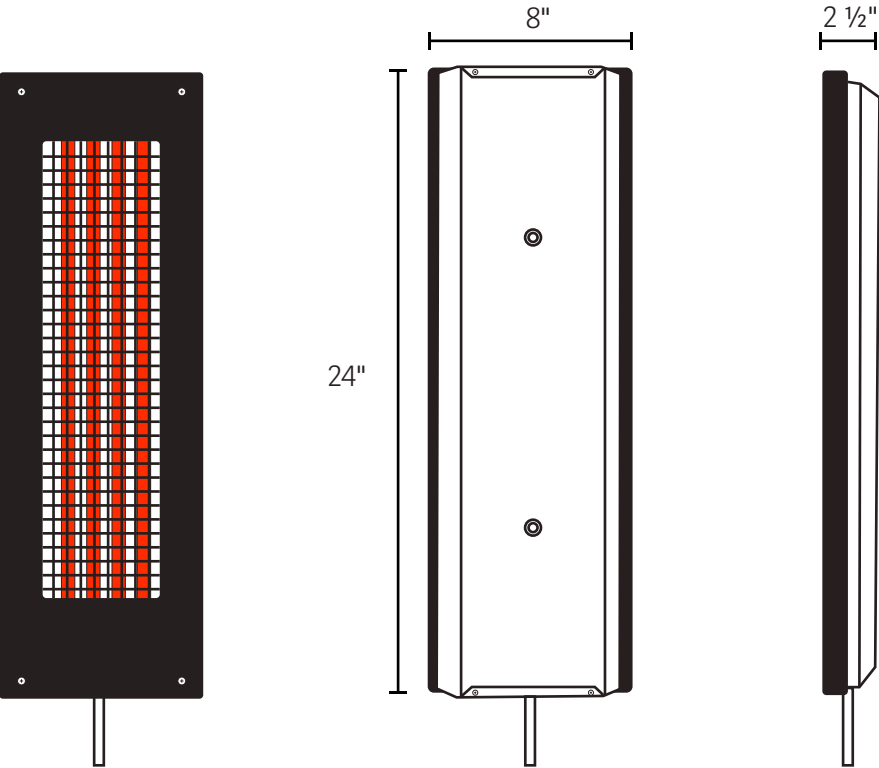

Accelerated Recovery: Soothes muscles and joints, aiding in faster recovery post-exertion.

Enhanced Stress Relief: Deep heat promotes relaxation and reduces stress.

Better Sleep Quality: Enhanced relaxation may contribute to improved sleep.

Overall Wellness: Supports relaxation, detoxification, and muscle recovery for holistic well-being.

- 300W Heater with IEC plug
- Door mounts & hardware

Features

Full Spectrum Coverage

Additional near, mid, and far infrared for enhanced sauna benefits.

Increased Temperature

Boosts sauna temperature by 7-21%, depending on the model.

Quick Installation

Takes less than 10 minutes to install and enjoy the enhanced benefits.

Seamless Integration

Plugs safely into a built-in receptacle at the front of the sauna door.

Universal Compatibility

Works with all Clearlight® Infrared Sauna models, pre-equipped for easy installation.

Cleaning & Care

To maintain optimal performance, follow these cleaning steps for your Full Spectrum Upgrade Heater:

Flock Surfaces: Use a lint roller or soft brush to clean any dust or debris from the flocked surfaces of the heater.

Vents: Use canned air to blow out any dust from the vent openings, or use a vacuum with a soft brush attachment to gently clean the area. Alternatively, a hair dryer on the cool setting can be used to blow dust out of hard-to-reach areas.

Important: Always ensure the heater is turned off and completely cool before cleaning. Never use water or cleaning solutions directly on the heater.
