

OUR PENINSULAS

The 45th parallel has been known to traverse through some of the best wine-producing regions in the world such as Piemonte in northwestern Italy--home to some of our absolute favorite producers--and Michigan's Leelanau and Old Mission peninsulas. That's but one connection, the most significant other being that both Italy and Michigan are peninsulas in and of themselves while each having distinctive attributes that encourage agricultural diversity and truly world class wine production. Yes, we know that Bordeaux, and the Rhône and Willamette valleys are 'in the band' too. So is Yellowstone. Focus.

YOUR ATTENTION PLEASE

We are very proud to be a woman-owned and operated business and want to highlight other amazing girl bosses who operate at the highest standards and set a great example for young women to lead confidently. There are a number of immeasurably talented non-female managers, colleagues, friends, suppliers, etc. who have contributed to our success and with whom we will be shoulder to shoulder as we reach twenty years in business and usher in the future. We are grateful for all our relationships forged in hospitality and authenticity since 2004.

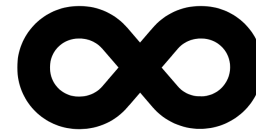

WOMEN IN CHARGE

Wine made by women, made from grapes grown by women, and/or from wineries owned by women.

MICHIGAN GROWN

Wine and cider made from grapes, apples and pears actually grown in Michigan as well as made here.

MADE BY FRIENDS

Wine and cider made by friends with whom we share experiences and history and who are a part of our on-going story.

EVERYTHING MATTERS Effervessant and refreshing, even the simplest of sparklers can be excellent, made from healthfully grown grapes by farmers and families, not factories. SEEKING A MORE INTELLECTUAL PURSUIT? Nothing scratches that itch better than a sparkling wine that has laid in waiting absorbing all the nutty aromas and marble rye character from the precious little yeasts that gave their lives for this most singular style of wine. EXPLORE REGIONAL VARIETIES THROUGH BUBBLES Many regions make wine based on Chardonnay and Pinot Noir in the same method as Champagne, like Alta Langa and Franciacorta. Bubbles made by the method but with indigenous varieties from each region are a great way to experience regional refinement.

Italy has thousands of varieties, most of which are grown in the teeny-tiny area where they are originally from. The same families have farmed these indigenous varieties for generations in the same place. While winemaking in most areas has gotten a little more modern and standards have improved across the board, the roots of the vines go deep and each glass reflects the work of families as opposed to the homogeneity of large scale producers and their 'moderate everything' wine.

If you like Italian Pinot Grigio, you will like Cortese, Ribolla Gialla, Fiano, etc. If you like Sauvignon Blanc, have one; or try a dry Riesling or Müller-Thurgau. Chardonnay? We have that too. In any case, we have a white wine that will suit your palate. It just might not be the one you thought you wanted.
