

THE CREATIVE DIRECTION TEMPLATE

Thanks so much for grabbing the creative direction template!

I created this in a way that I personally found easiest to use, and in this document is going to give you a quick rundown on how to use it.

This template is for personal and commercial use, but cannot be sold or shared as your own. Please read the Terms & Conditions for more information

Continue this document to see the instructions

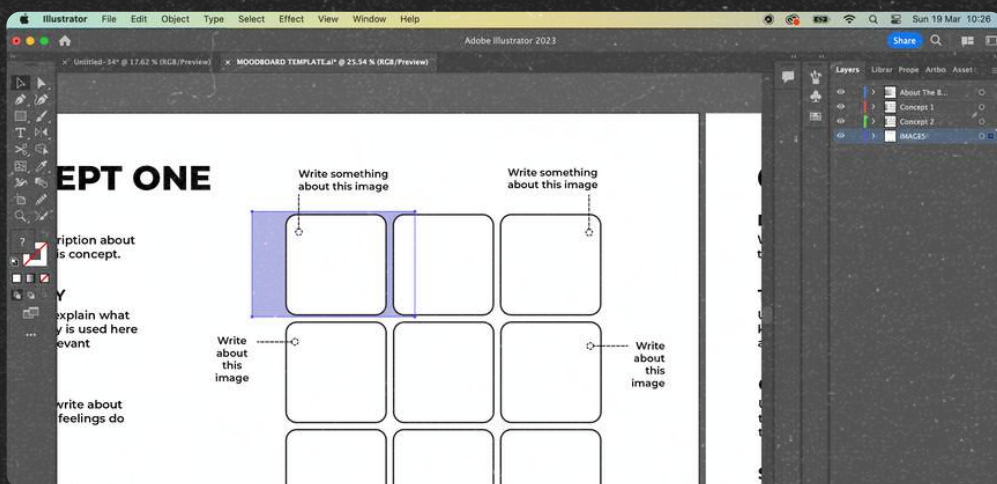

INSTRUCTIONS

01

To add images to the moodboard, drag and drop your image behind the square you would like it to be in. If it lays on top of the image, use the layers panel to drag the image to the bottom.

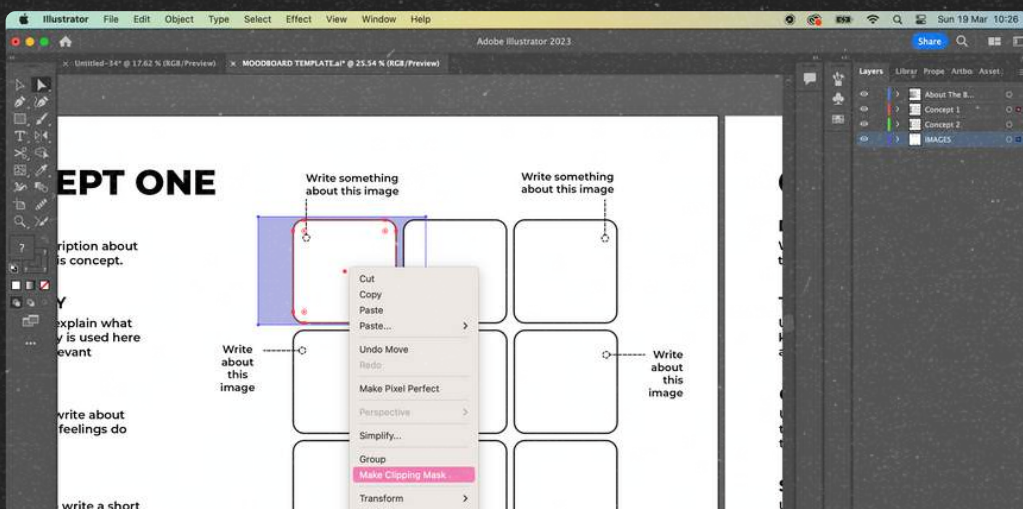

Alternatively you can right click the image > arrange > send to back

02

Once the image is in place, click on the square and the image while holding shift to select them both.

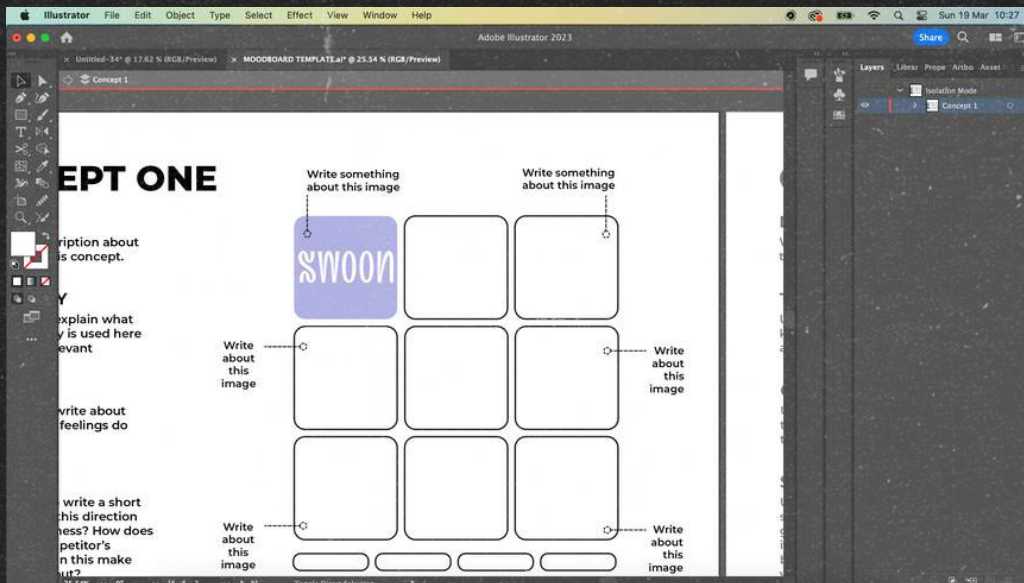

Next, right click > Make clipping mask

03

The image will now be inside of the square.

If you want to bring back the square outlines, simply select the box and set the stroke to 3px

04

You can also adjust the placement of the image inside the box by double clicking on it. This will allow you to move and scale the image while still being inside the box

And that's it!

Thanks so much for downloading! I hope you make great use out of it!

If you have any troubleshooting issues or any other questions about the template, please don't be afraid to email me!

Love ya x
