Purpose Statement

The Together Giving Back [TGB] Foundation is an impact-driven national nonprofit dedicated to safeguarding children from sex trafficking activities and empowering kids in rural America by fostering self-sufficiency. Through the work of this 501(c)(3), we're helping to build advanced technology and programs that stop the spread of sexually exploitative content online, fights against child sex trafficking & abuse ... and even aids in the capture of the perpetrators. The TGB Foundation also encourages self-sufficiency in children from rural towns through our S.T.E.M. & Robotics programs that ignite a passion for technology careers.

Created in honor of Optomi, llc Cofounder, Todd G. Black, the Foundation focuses its efforts on giving kids the best life possible. Todd championed strong values, generosity, warm-hearted corporate culture, and he relished any opportunity to make a positive impact in people's lives. His giving spirit, genuine heart for those in need, and passion for doing the right thing made him a remarkable leader, friend, husband, father and neighbor. Fueled by these philosophies, The TGB Foundation carries on his legacy.

Directed by those closest to Todd's heart, our collective passion is transforming little lives and fostering thriving communities. Join us in our mission to create a safer, more prosperous future for all children.

WHEN WE OPEN OUR HEARTS, DONATE OUR TIME, SHARE OUR RESOURCES AND DEMONSTRATE LOVE, THERE'S NOTHING WE CAN'T DO TOGETHER.

Organizational Structure

When we open our hearts, donate our time, share our resources and demonstrate love, there's nothing we can't do together.

Our Programs

CHILD SEX TRAFFICKING DEFENSE PROGRAM

Our newest program safeguards children from sex trafficking activities. We're helping to build advanced technology and programs that stop the spread of sexually exploitative content online, fights against child sex trafficking & abuse ... and even aids in the capture of the perpetrators.

STEM & ROBOTICS PROGRAM

A concentrated effort to open more doors for children in small towns. We're providing computer science resources that empower kids in rural towns and ignites a passion for technology careers. Our goal is to inspire a life of self-sufficiency.

VOLUNTEERING

In the aftermath of the pandemic, the sweetness of personal interaction is even more evident. We love "doing" ... working alongside our friends, neighbors and coworkers to ensure the best possible life for children in need.
