This mini guide is packed with helpful tips that are aimed to assist you throughout the wedding planning process. My ultimate goal is to be SO much more than your photographer. I'd love for you to consider me your friend, because we'll be spending the entire wedding day together! Over the last 10+ years, I've picked up a few tricks that will help me ensure that your images are absolutely stunning.

Envision your big day

It's your wedding day! You get to plan the wildest and most gorgeous celebration you can think of! Now that you have the opportunity to plan the wedding of your dreams, start by keeping a journal dedicated to your dream wedding. Make a note of every little detail you can think of so you have a quick reference and don't forget any of your brilliant ideas!

Choosing your vendors

Wedding vendors are, hands down, the most important part of planning your wedding. They're the seasoned pros tasked with taking your vision from a daydream to a full-fledged reality, which is why it's so important to work closely and clearly with each of the pros you hire. I've created a master list of amazing Newfoundland Wedding Vendors that will help you plan your big day.

Timeline

Create a detailed wedding day timeline will guarantee your wedding day runs smoothly. This will help you stay organized, stress-free, and on time. Share your wedding day timeline with your family, wedding party, planner, photographer, venue, caterer, florist, and other vendors so everyone is on the same page. While most weddings follow a similar format, the order in which these events occur may differ based on your preferences. It's not a one size fits all. Please feel free to talk to me about the specifics of your day and I can help you work it out!
