
MUSE CINCY
Boudoir

Meet Kate!

My goal when shooting boudoir is that people of all genders, ages, sizes, and abilities are able to feel gorgeous, strong, and highly empowered.

Creating a connection with people who want to celebrate every part of themselves is not just creatively fulfilling but also emotionally enriching.

A boudoir shoot is one of the most intimate sessions you can give yourself and I'm deeply passionate about making every part of your session positive!

Process & Pricing

Q: CAN YOU WALK ME THROUGH THE PROCESS FROM START TO FINISH?

To offer a customized experience for you, we offer a three-step process.

First, we'll get together for an initial phone consultation, where we'll discuss your vision for the final product. From a gorgeous Fine Art Album or Canvas art over the fireplace, we're strong believers in the power of print.

Second is the shoot itself; here, you will enjoy a stress-free session. Everything we discussed at the consultation will come to fruition, from the clothes you wear to the poses we capture.

Finally, your beautiful, fully edited gallery will be delivered. Once you see your photos, you decide which prints or album packages you may want to purchase.

Q: HOW MUCH ARE THE IMAGES? ARE THERE ADDITIONAL COSTS?

You recieve all of the images from your session. There is no limit, minimal amount of purchase, or hidden fees. We want you to have tons of options to choose from! The only additional fees will be for added prints and products.

Q: HOW CAN I FEEL MORE COMFORTABLE GOING INTO MY SESSION? HELP!

A: *TRUST ME!* I've done tons of boudoir sessions, I've got the posing and angles down pat. I'm here to guide you through every fun and flirty pose, so no need to practice for hours in front of the mirror!

Try on your Wardrobe Before Your Session! You want to make sure you feel sexy and comfortable in every piece you bring. Buy your outfits in advance and wear them around your home to see how they feel over time. Try bra and pantie sets, bodysuits, lace, leather, and everything in between to find your perfect vibe!

Don't Forget WHY You're Doing This! This is an AFFIRMATION, not a TRANSFORMATION. Your boudoir session serves as a reminder that you are sensual, sexual, valid, and valued from top to bottom!

Trust Yourself & Relax! Just go with the flow. Be open to the experience and try to relax. Create the perfect playlist, let go of your insecurities, and just BE!

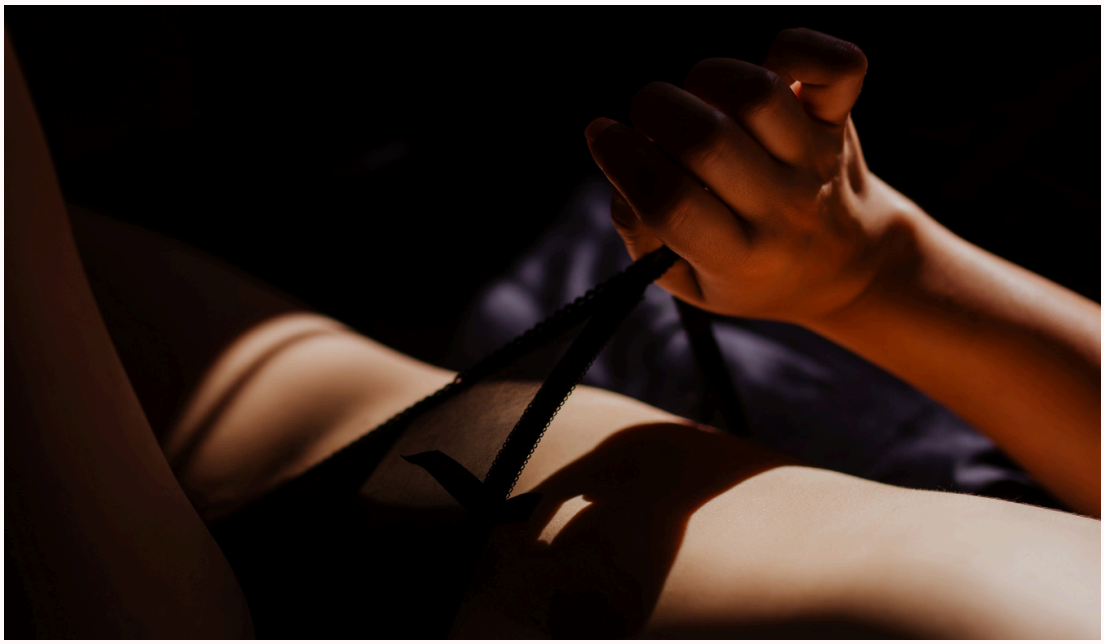

Q: WHO WILL SEE ME TAKE MY BOUDOIR PHOTOS?

It's just you and me in the room. I'm here to make you look and feel great! I love to have fun and by the time your session is over you will forget how nervous you were to begin with.

Q: SHOULD MY FRIENDS GO WITH ME TO MY BOUDOIR SESSION?

A: My honest recommendation (and this is pretty contrary to a lot of pros) is to bring whomever will hype you up and make you feel most comfortable!

The reason being is when you get in that room with myself and your friend is there a lot of the times you'll start feeling more loosey goosey. This creates a relaxed environment and will have a really positive effect on your session because you aren't concentrating on any nerves you're feeling. You will be safe and absolutely without a need to worry. I get that a friend may be a safety blanket and a boudoir session is an intimate experience, so it's very important to be able to be comfortable in that space!

LET YOUR *imagination* SOAR

"Sexiness isn't being young, hot and wearing a bikini. It's being powerful and feeling like you belong in your skin and it feels good." - Lights

How to Prep for your Session

The thought of a boudoir session can be scary. When talking to people about their session, I get asked all kinds of questions, so I wanted to compile a list of frequently asked questions with answers to give you some insight on preparing for your boudoir session with me!

STYLE & GLAM

Q: WHAT SHOULD I WEAR?

A: Whatever you want! All sessions include a wardrobe consultation & I want you to wear what makes you feel amazing. For some that's lace, for some it's latex. Of course, there's a boatload of options in between! I'm happy to point you toward some ideas to channel your style & make you look & feel like your best most outrageously sexy self. The best thing you can wear is confidence!

Q: HOW SHOULD I DO MY HAIR AND MAKEUP?

A: I highly suggest you go with hair and makeup that you usually wear, just a little... more! We want you feeling authentically beautiful, not so made up you feel like a different person. If you'd like a rec for professional services, just let me know!

EDITING & DELIVERY

Q: CAN YOU PHOTOSHOP MY [INSERT LEAST FAVORITE BODY PART HERE]?

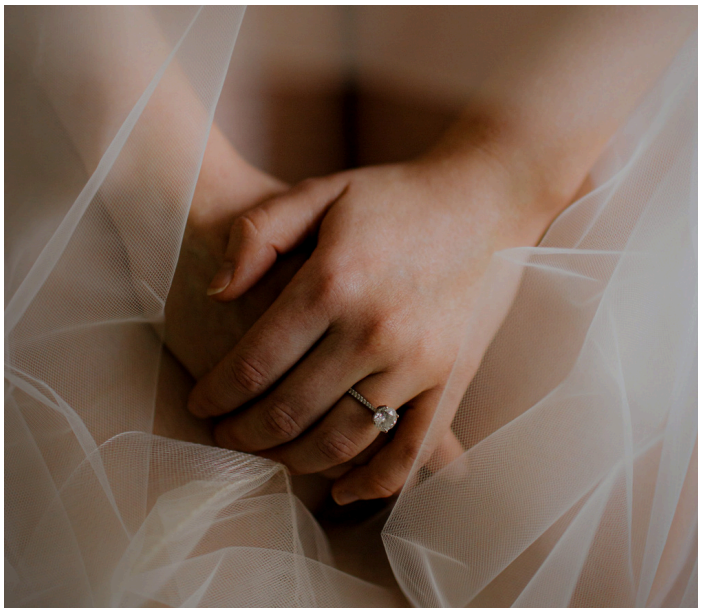

Let's be honest, we all have things about ourselves that we feel as though are less than perfect and we may not want one of those things shown. When we speak on the phone I will take note of you're the areas of the body you'd like to conceal and enhance.

Q: DO YOU PROVIDE PRINT PRODUCTS?

I am a very big believer in the power of prints and wall art. Holding your beautiful photos in your hands and displaying them for yourself or your partner is an empowering and deeply intimate act that allows you to relive your boudoir experience every day. During your consultation we will go over all available print and wall art items you might be interested in.

PRIVACY & Posting

Q: ARE YOU GOING TO POST MY PHOTOS ALL OVER THE INTERNET?

A: No way! The folx you see in my pictures are people who have given me written permission to use their photos to showcase my work.

I won't lie, I would love to use your photos for my blog. Showcasing clients and telling their stories helps other people want to come up with the courage to shoot as well. Plus, you're going to look FIRE!

If you're open to allowing me to use your images we can go through which ones you'd be comfortable with, but the default is that they are strictly private without written permission to share.
