CLICK TO ACCESS

HOW TO INSTALL

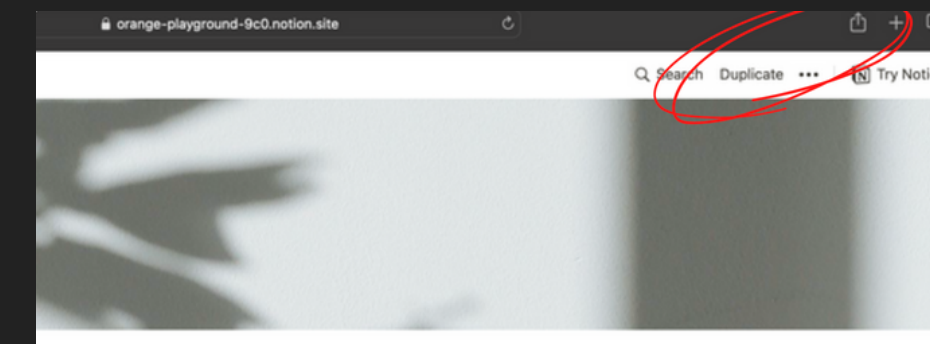

Before you can use the template it must be duplicated to your own Notion account.

Simply click the template link to open the template in your browser

You may see a screen with this message. If so, click the blue link.

Next you will see the template open in Notion. Before you can edit it or make any changes, click the 'Duplicate' button at the top right of the screen.

This duplicates the template to your Notion and now you are free to make any changes. It may take a few minutes to load everything up.

THANK YOU

Thanks so much for downloading the template! I'm on a mission to help creative business owners feel confident in their design business
