prAna

live the experience

prAna is more than apparel—it's an invitation to live the experience. Every piece we create is a balance of style and functionality, crafted with care for both people and planet. We hold ourselves to the highest standards of transparency and accountability, so you can feel confident in what you wear and why you wear it. Because for us, movement is more than motion. It's how we connect, explore, and keep becoming—breath by breath, stride by stride.

summer

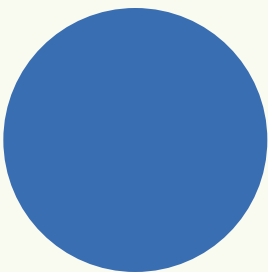

Spring's longer days invite us back outside to discover the details we've overlooked all winter. Inspired by the hidden gems of Mérida, Mexico, this season explores what lies beneath the surface. Undetectable from above, a descent into a cenote reveals an entirely new world. An unassuming city street can open into unexpected dimensions within. The Spring 2027 collection is designed for long journeys full of unexpected surprises—from day to night, city to the great outdoors.

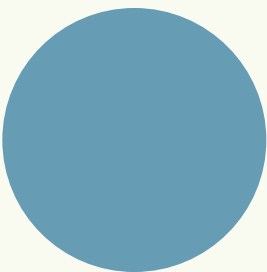

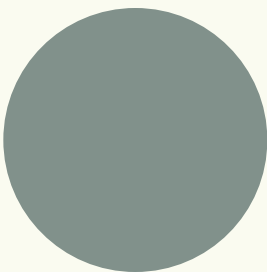

spring summer 2027 color palette

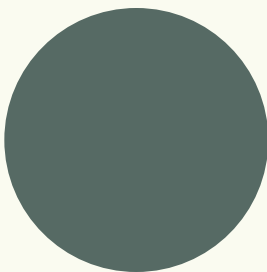

Our Spring 2027 color palette takes inspiration from natural and architectural elements of Mérida, Mexico. Bright pinks and fiery reds reflect the city’s warmth, balanced by sun-washed neutrals and rich browns drawn from the surrounding landscape. Vivid shades of blue—seen painted across building exteriors and mirrored in the waters of the cenotes—add brightness and depth, creating cool contrast to the season’s warmer tones.
