

Your Gallery, *What Happens Next*

Everything you need to know about getting, saving and sharing your wedding photos.

What to expect

SNEAK PEEKS A few favorites within 1–2 days, often by the time you wake up the next morning.

FULL GALLERY Delivered to your inbox within 6–8 weeks, with a private link to view, download and share.

STAYS ONLINE Your gallery stays live for 12 months. Download everything before then.

Downloading your photos

- Download on a computer, not your phone, to get every full-resolution file.
- Choose high resolution for prints and web size for social media.
- Save your photos in at least two places, like a hard drive and cloud storage.
- Mark your favorites as you go. It makes choosing prints much easier later.

When you first open it

Set aside a quiet evening, pour something nice and look through it together. Most couples go through their gallery more than once, and notice something new each time.

A few tips from me

- Send the gallery link to family so they can save their own favorites.
- Keep your gallery link and password somewhere safe.
- Something not loading? Try a different browser, then email me.
- Have a question about a photo? Just ask. I'm happy to help.

Share It, Print It, *Keep It Forever*

Your photos are meant to be seen, held and passed down, not left on a hard drive.

Sharing online

- Tag me at @emmykienastweddings so I can see your posts and cheer you on.
- Please skip filters and heavy cropping so the photos look their best.
- Use the web-size files for the sharpest results on social media.

Printing your photos

- Order through your gallery for professional, color-matched prints.
 - Drugstore prints often come out darker or off-color.
 - Start with a few favorites framed where you'll see them every day.
-

Before you're done

- | | |
|---|---|
| ☐ Download your full gallery | ☐ Pick favorites for prints |
| ☐ Back it up in two places | ☐ Ask me about an heirloom album |
| ☐ Share the link with family | ☐ Leave a review if you loved it |
-

Why an album

Screens change and files get lost. An album is the thing you'll pull off the shelf in 30 years and hand to your kids.

One last
thing

Thank you for trusting me with your day. It was an honor to be there.

— Emmy
