Photo sessions don't have to be stressful, they don't have to be posed, and they don't have to be boring. My goal with the creative sessions is to encourage you to interact and create real memories. From game nights to smores to bowling to creating music to picking out a Christmas tree - nothing is off limits and everything is encouraged. Gather the people you love together and make memories. Then let me tag along so that you have pictures to relive it all again and again and again.

FAQ

How does the subscription work? What does it cost?

Cost Breakdown

Breaking down the most common choice - Package 2: The subscription can be broken down into 12 equal monthly payments of \$181 or one large sum of \$2040

How Often Should I have photos taken ?

With 6 sessions, I recommend having photos done every other month. However, if you have multiple events happening close together that you'd like documented that's fine too! Really the possibilities are endless. We will discuss your session desires up front, but you can switch up your choices at any time.

Can I Upgrade?

Absolutely. Upgrades are in half hour increments with a \$200 upcharge per half hour.

ex. Upgrading a half hour session to a full hour is \$200.
ex2. Upgrading a full hour session to a two hour session is \$400.

(One hour sessions outside of the subscription package go for \$525 so this is a great deal!)

FAQ

Can I upgrade the sessions to last longer?

How Many Photos?

I won't tell you any specific delivery number, but let me be clear - I am an over deliverer. I want you to have all of the best photos so that you can decide what your favorites are!

Within two weeks of each session you will receive an email with access to your fully edited digital gallery. Download the photos directly to your computer, phone, or tablet and you are all set!

I do offer professional printing services, but you are welcome to print them on your own as well. I am happy to answer any printing questions you may have.

Photo Book Info

I believe that a printed photo album is the perfect way to easily look back on your precious memories. Our walls only have so much space and do we ever look through the thousands of photos on our computers and phones? Having a book for each year is the perfect way to watch your family grow up,

When all of your sessions have taken place and all money has been paid, you will receive a proof of your book design. It is a 10x10, 20 spread book with thick, lay flat pages and hard cover leather binding. You will have final say over all design aspects - images chosen, cover material and color, spread layouts - but I take all of the initial headache of design work off your shoulders.

All photos will not make it into the book, only the best and favorites of each session.
