WONDERFIELD

A REGENERATIVE
FARM STAY

SOME INSPIRATION...

to host your experience here

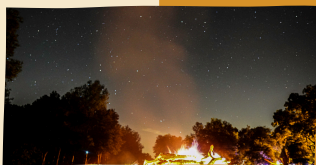

WE ARE A RESTORED FLORIDA ORANGE GROVE

We have an intention to regenerate this land to preserve the natural heritage, to be enjoyed for generations to come. Acres of wild citrus, available to be harvested right off the trees - it's a Florida experience everyone must experience.

WE ARE A REGENERATIVE NATURE SANCTUARY

Alongside our heritage groves, we have intentionally crafted our land to be in sync to the local ecosystem. Every action is taken with care, as "harmony with nature" is one of the core values at Wonderfield. Our 66-acre regenerative farm is adjacent to a 10,000 acre nature preserve. The preserve is a mosaic of small lakes, marshes and swamps, with numerous scattered islands of forested uplands that are all a part of the Florida Wildlife Corridor.

A CENTER FOR RESTORATIVE NATURE THERAPY

As more data emerges on the healing power of nature, we have enthusiastically positioned ourselves as an innovator in this modality. From our practices onsite, to our close proximity to a large nature sanctuary - here, the healing power of nature is abundant and all-encompassing. We are engaged with the Association of Nature and Forest Therapy to certify our onsite trails, so, take a walk, sit in stillness to observe the spring-fed canal, experience wild flora and fauna and restore your wonder!
