Mid-century ease, softened for modern living

The Datum Bench draws inspiration from the relaxed glamour of 1940s interiors, reinterpreted through the lens of PARISII refined simplicity. Its sculptural steel base—available in oil-rubbed bronze or gunmetal—forms a quiet architectural cradle, grounding the piece with strength while remaining visually light.

Above, a softly upholstered bench rests within the frame, its gently curved arms recalling classic mid-century silhouettes. The curves are subtle and inviting, designed to feel familiar rather than nostalgic—an echo of Hollywood-era lounge seating softened for contemporary interiors.

Balanced in proportion and effortless in character, the Datum Bench is both functional and expressive. It works seamlessly at the foot of a bed, along a hallway, or as casual seating in a living space, offering comfort without excess and style without ornament. Like the rest of the Datum Collection, the bench embodies ease, warmth, and quiet confidence—designed for everyday use, shaped by timeless form.
