Mature trees from a neighbouring garden provide privacy, making this space ideal for relaxation and socializing.

Subtle hints of light blue, pale yellow and warm sandy tones evoke a coastal atmosphere inspired by the Hamptons and Cape Cod.

PHOTOGRAPHY, STEPHANI BUCHMAN

Family Friendly

What was once an underused area – filled with trees and lacking interest – has now been transformed into a serene retreat for the entire extended family. The owners, a mature couple who love to entertain, envisioned an outdoor space that felt like home. The focal point is undoubtedly the large pool, designed with a long, shallow entry – a safe spot for children wanting to splash around. Generous chaise longues nearby allow adults to relax while keeping an eye on the kids. The calming ambience of this oasis is achieved with a neutral palette, where materials like rattan, linen and concrete add texture and warmth. The goal was to create a natural extension of the home, with finishes that integrate the interior style with the exterior space. The cabana, housing an outdoor kitchen, dining area and cozy lounge with sumptuous fireplace, feels as if it has always been part of the property.
