1. WHAT IS PARAMEDICAL TATTOOING?

THIS PROGRAM ISN'T JUST ABOUT LEARNING A SKILL—IT'S ABOUT RECLAIMING YOUR FREEDOM, YOUR BALANCE, AND THE LIFE YOU DESERVE.

AS A PARAMEDICAL TATTOO ARTIST, YOU'LL:

- Work on your terms with flexible hours and a schedule you control.
- Build personal connections in a setting that values quality over speed.
- Create a career where your effort directly impacts your success, with session rates ranging from $500 to $3,000.
- Become an extension of healing, allowing people to close painful chapters and move forward with newfound self-acceptance.

This path isn't about starting over; it's about using your passion and care to help others in a way that works for your life.

2. YOUR GUIDE: WHY I'M HERE TO HELP

TIME IS OUR MOST VALUABLE RESOURCE

HOW DO YOU WANT TO SPEND IT?

There was a time when I felt stuck in a life that didn't align with who I was. On the outside, it looked like I was successful, but my so-called success felt hollow. Maybe you feel the same way—accomplished but disconnected, wondering if this is all there is? Every day, I felt like I was just going through the motions, questioning if I'd ever find something that felt meaningful and purposeful.

Taking the leap into paramedical tattooing wasn't easy—it was terrifying. But it rewired my thinking, gave me the courage to believe in new possibilities (and most importantly, myself), and finally helped me create a life that aligned with my values. Over the years, I've come to value my time and energy even more than money—because while you can always find ways to make more money, you can never create more time. Paramedical tattooing allows me to honor my time, do work that fulfills me, and create financial abundance for my family and passions.

I also know that even the smallest steps toward something new can create a ripple effect, shifting your perspective, building momentum, and revealing strengths you didn't even know you had.
But you don't have to do it alone. Having the right mentor—someone who's already walked this path—can accelerate your learning, shorten the trial-and-error phase, and help you build a business on your terms with confidence. I'm here to guide you, helping you refine your skills, trust in your abilities, and fast-track your success so you can start transforming lives (including your own) much sooner.

This program isn't just about learning a skill—it's about reclaiming your freedom, your balance, and the life you deserve. Together, we'll create a path that aligns with who you are and who you're meant to be.

This is your story. Let's write the next chapter together.

To your inevitable success,

Jayd Hernandez

FAQ

What you need to know to take the leap

UNDERSTANDING THE CAREER PATH

Q. **WHAT IS PARAMEDICAL TATTOOING AND HOW IS IT DIFFERENT FROM TRADITIONAL TATTOOING?**

A. Paramedical tattooing is a specialized form of tattooing that focuses on helping people heal emotionally and physically. Techniques like scar camouflage, areola restoration, stretch mark blending, and even scalp micropigmentation all fall under the category of "paramedical tattooing," which offer clients a renewed sense of confidence and self-worth.

At Studio Conceal, we offer three specialized training programs:

- Signature Stretch Mark & Scar Camouflage Training – Designed for beginner artists looking to master the fundamentals of paramedical tattooing and work on compromised scar tissue.

- Jayd's Sexy 3D Areola Drawing Course (Online) – A foundational program that teaches artists how to draw realistic nipples, preparing them for advanced areola tattooing.

- Advanced 3D Areola Restorative Tattooing Training – A hands-on program for experienced artists, focusing on hyper-realistic areola tattooing (prerequisite required).

Each course is thoughtfully designed to guide you through every stage of your paramedical tattooing journey, ensuring you gain the skills and confidence needed to succeed.

Q. IS THERE DEMAND FOR PARAMEDICAL TATTOOING SERVICES?

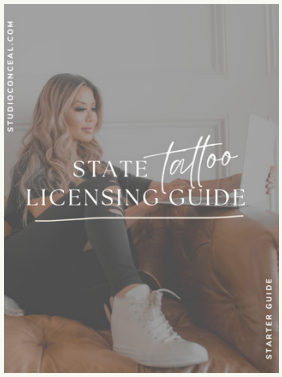

A. Yes, and the need is growing. The global tattoo market, which includes paramedical tattooing, was valued at approximately USD 2.22 billion in 2024 and is expected to reach USD 4.83 billion by 2032, growing at a compound annual growth rate (CAGR) of about 10.2% during the forecast period. Business Research Insights

As cosmetic and aesthetic procedures become increasingly popular, more people are turning to medical tattooing as a non-invasive alternative. Scar camouflage, for example, can be used to cover up scars from surgeries or accidents, while areola restoration can help breast cancer survivors regain their confidence and sense of self.

These services meet a deeply personal demand, helping clients reclaim a sense of normalcy after trauma. Because this work requires both skill and sensitivity, clients actively seek out practitioners they can trust—making it an invaluable niche for those willing to do it right.

Q. WHAT KIND OF CERTIFICATIONS OR LICENSING WILL I NEED?

A. Requirements vary by state and location, but most regions require certification in bloodborne pathogens and a tattooing license. "Paramedical tattooing" often falls under "tattooing" or even "permanent make up." To simplify this for you—we offer a free state tattooing licensing guide to help you through this process, ensuring you meet all necessary regulations and are fully prepared to start your practice confidently.

Click here to download your FREE State Tattoo Licensing Guide to see what your state requires to begin tattooing legally.

Q. WHO IS THIS PROGRAM FOR?

A. I've trained people from all walks of life—stay-at-home moms re-entering the workforce, nurses, aestheticians, and corporate professionals—but the students who build the most impactful and profitable careers in paramedical tattooing share two key traits:

1) A deep desire to help others heal – They're purpose-driven, passionate about making a difference, and see this work as more than just a skill—it's a calling.

2) A willingness to step outside their comfort zone – They're ambitious, coachable, and unafraid to test, explore, and put themselves out there to grow their reach and serve more people.
Success in this industry isn't just about technique; it's about commitment, resilience, and a drive to build something bigger than yourself. If that sounds like you, this program is for you.

Q. IS PARAMEDICAL TATTOOING COVERED BY INSURANCE?

A. It depends.

For mastectomy areola tattoos, we often work with clients to help them get reimbursed by their insurance. However, they typically need to pay for the procedure out of pocket first, and then submit for reimbursement.

For scar revisions and camouflage tattooing, these services are generally considered "cosmetic" and are not covered by insurance. That said, we've had significant success in helping breast cancer survivors receive reimbursement for "medical micropigmentation" services at our practice.

Q. WHY IS YOUR PROGRAM $9,750, AND HOW DOES IT COMPARE TO OTHER TRAINING OPTIONS?

A. Our program isn't just a quick certification—it's a **comprehensive, year-long mentorship** designed to equip you with both the **technical expertise** to treat complex cases and the **business strategies** to attract clients, price your services effectively, and run a successful practice.
Most programs charge **$5,500 or more** for a **2-3 day crash course,** leaving students overwhelmed and uncertain about how to market themselves, get clients, and turn their certification into a profitable career.
What many people don't realize is that a **certificate alone doesn't guarantee success**—it won't bring in clients, teach you social media marketing, or show you how to confidently build your business. That's why our program goes beyond the basics.

One of the biggest game-changers for our students is **our monthly coaching calls,** where we share real-life case studies, demonstrate how we camouflage scars and stretch marks, and provide

personalized support. This ongoing mentorship ensures you're never left figuring things out on your own—you'll have guidance every step of the way.

Here's how your investment with us is designed to set you apart and set you up for long-term success:

- **Comprehensive Training, Not a Crash Course**

We don't believe in offering quick-fix certifications that leave you unprepared for real-world success. Our program is a full-year commitment that starts with **online foundational training**, followed by an intensive **5-days, in person workshop** with live models, and continues with a full year of business mentorship.

Think of this as a *paramedical tattoo business program,* not just a 2–3 day crash course. While a short training might hand you a certificate, it doesn't guarantee sales, clients—or the confidence to handle diverse client needs. Our program goes beyond technical skills, helping you refine your craft, market and build a business, and create a profitable, fulfilling career.

- **Exclusive Methodology That Minimizes Mistakes**

Our unique and proven approach to skin tone matching and scar minimization is specifically tailored for medical and aesthetic providers. We teach you how to match *any* skin tone with precision—an essential skill that ensures exceptional results and helps you avoid costly, reputation-damaging mistakes.

- **A Business Partner, Not Just a Trainer**

Most students we train have never started and owned their own business before. They are often stepping into the entrepreneur space for the first time. Learning how to tattoo is only *one* part of the equation. That's why we don't just train you; we empower you to build a thriving paramedical tattoo business. Think of it this way: being a great chef doesn't mean you know how to run a successful restaurant—those are two entirely different skill sets. Similarly, our program equips you with the entrepreneurial tools and strategies to grow a legitimate business.

- **Flexible and Results-Oriented Design**

Your schedule matters. We've structured our mentorship to be online to accommodate working professionals, allowing you to learn while balancing your existing responsibilities.

- **Unparalleled Support for Lasting Success**

Unlike short-term courses that leave you to fend for yourself, we offer ongoing mentorship and coaching. With live coaching calls, full-time support, and tailored guidance, you'll have a partner every step of the way. This is more than a course—it's an investment in your future as a highly skilled paramedical tattooist and successful business owner. You're not just learning how to tattoo; you're learning how to build a career that delivers exceptional results, creates meaningful impact, and brings personal fulfillment.

Q. **BUT I'M NOT SURE I'M READY TO RUN MY OWN BUSINESS—WHAT IF I FAIL?**

A. It's completely normal to feel overwhelmed at the idea of leaving a stable career or starting something new. That's why this program is built to guide you every step of the way.

From foundational online training to a hands-on workshop where you'll gain real-world experience, to a full year of mentorship and live coaching calls, we don't just teach you the technical skills—you'll learn how to market your services, connect with clients, and grow your business confidently.

You don't have to figure it all out alone. Many artists we've trained had the same fears, and now they're thriving in their own practices, doing work they love without sacrificing themselves in the process.

You can do this your way. Whether you decide to quit your full time job and pursue this instead, or start part-time - or even as a side hobby, I guarantee **you'll still enjoy every minute of it.** This is all about creating something your way, and on your terms. I truly believe you can create without pressure.

Q. **DO I NEED TO BE ARTISTIC TO SUCCEED IN THIS FIELD?**

A. **Not at all!** Our training is designed for beginners, including those with no prior tattooing or art background. We provide step-by-step guidance to approach each client with the technical expertise needed to succeed.

Q. **HOW DOES THIS WORK FULFILL MY DESIRE TO MAKE A DIFFERENCE?**

A. You'll still be transforming lives—helping clients heal from scars, trauma, and loss in a deeply meaningful way. Your work will not only be impactful but also empowering for both you and your clients.

Q. **HOW LONG DOES IT TAKE TO TRAIN AND START WORKING?**

A. Our program is a transformative year-long commitment designed to set you up for success in paramedical tattooing. We start with online training to familiarize you with the foundational knowledge you'll need, followed by an immersive 5-day, in-person workshop where you'll work with live models, master camouflage tattooing techniques, and learn practical strategies to market and sell your services.

Our goal is simple: by the time you finish your 5-day hands-on training, you'll feel confident and ready to begin working with clients immediately. And with our ongoing support, you'll have the tools, guidance, and community to create a successful practice that combines your passion to help others with a sustainable business model.

Q. CAN I TRANSITION TO THIS CAREER WHILE STILL WORKING FULL-TIME?

A. Absolutely! Many of our students begin their journey part-time, allowing them to build their skills and client base at a pace that fits their schedule. This program is designed with flexibility in mind, so you can maintain your full-time Jon=b while learning and growing in your new career.

Whether you're easing into the transition or exploring paramedical tattooing as a side passion, you'll have the support and tools you need to make it work on your terms.

Q. HOW DO I CHOOSE A TRAINER?

A. Choosing the right trainer is crucial to your success in paramedical tattooing. Here's what to look for:

1. Proven Experience and Expertise

Review their portfolio to see their work specializes in scar camouflage, areola restoration, or other paramedical techniques.

- Look for trainers who have a strong background in both experience and client care, ensuring they can teach you to balance technical skill with empathy.

2. Comprehensive Program Outline

Does their training go beyond just technical skills? A great program should also teach you about client communication, marketing, and business-building strategies to set you up for long-term success.

3. Hands-On Practice with Real Models

Ensure the program includes live model practice. This experience is invaluable for building your confidence and refining your technique before working with paying clients, especially if you've never tattooed before.

. Ongoing Support

Training shouldn't end with a certification of completion. Look for trainers who offer mentorship,

live coaching calls, or access to a community where you can ask questions and get guidance as you grow your career.

5. Student Testimonials

What do other students say about their experience? Positive testimonials can give you insight into how well the trainer supports and prepares their students.

6. Accessibility and Communication

A great trainer will be approachable and responsive, willing to answer questions and guide you every step of the way.

Choosing a trainer isn't just about learning techniques—it's about finding someone who will invest in your success as you step into this new chapter. Take your time to evaluate options and pick the one that aligns with your values and goals.

Q. HOW DO I FIND CLIENTS?

A. We provide you with the exact tools and strategies to attract clients, so you're never left wondering where to start. Inside our **Mastermind Vault**, our exclusive online portal, you'll find s**tep-by-step educational modules** on client generation, networking, and community building.

To make your marketing journey easier, we bring in **guest experts** who specialize in **social media, sales**, and **messaging** to help you **master visibility, create compelling content,** and position yourself as the go-to expert in your area.

Beyond that, we show you how to cultivate a loyal audience of potential clients who genuinely need your services—so you can build a business that's not just profitable but also sustainable and fulfilling.

Q. HOW SOON WILL I SEE A RETURN ON INVESTMENT? HOW MUCH CAN I CHARGE?

A. Many students begin booking clients within months, with session rates averaging $300–$3000 or more. With the combination of our unique methodology that gives your clients incredible results and our business coaching, you'll have a clear plan to recoup your investment and create a sustainable practice.

Q. WHAT IF I MAKE MISTAKES?

A. Mistakes are part of learning, and they're an essential step in growth. That's why our program includes a year of mentorship to guide you as you navigate challenges. We'll equip you with the skills and resilience to recover from setbacks and use them to strengthen your practice.

Q. HOW WILL I KNOW THIS WILL WORK FOR ME?

A. Life is too short to feel uninspired. Too short to spend your days doing something that doesn't light you up. If what you're doing right now isn't expanding you—if it isn't evolving you—then what are you really holding onto?

The real risk isn't stepping into something new. It's staying stuck in a version of life that no longer fits.

Imagine waking up with a full heart, knowing your work is meaningful, your time is yours, and your energy is spent on something that actually matters. The ones who take this leap don't just learn a skill—they reclaim their fire, their freedom, their life.

If you feel that nudge, that pull toward something more, listen to it. That's your future calling. And it's waiting for you to say **yes.**

THE PLAN: YOUR NEXT STEPS

You downloaded this guide for a reason...

Deep down, you know it's time for a change—because nothing changes until ***you*** take the first step.

Here's how we'll make this simple:

1. Book an Assessment Call. This isn't just a call; it's your first step toward clarity. Together, we'll talk about what's possible and whether this path feels right for you. No pressure—just answers.

2. Begin Your Training. Imagine stepping into a program designed for someone like you—hands-on learning, mentorship, and a plan to help you transition into a career that finally works for your life.

You've dreamed of balance, freedom, and work that feels meaningful. This is your moment to stop wondering and start doing.

YOUR NEW CHAPTER STARTS HERE

The first step is simple—book your call today, and let's take this journey together

IMAGINE

WHAT IT WOULD FEEL LIKE TO WAKE UP TO THESE MESSAGES IN YOUR INBOX EVERYDAY?

SMS • 03:41 PM

I finally feel more confident in wearing things with shorter sleeves because I realized, I see them so much more than anyone else can. Talk about being out worst critics 😅 my sister couldn't even notice until I specifically pointed them out and she was looking at me like I was crazy for noticing them how I did lol

Liked by **gentrys.mama** and **others**

watch_nik_kick_cancer So, I'm at this stage of my journey. 😳 Better to be in this chair than the chemo chair, however this was not on my life's bingo card. 3D tattooing was wild, but I'm forever grateful to @studioconceal for her talent and kindness and for helping me accept myself again. If I had to get cancer, I guess getting it and dealing with it in the 21st century is the way to go. Never thought in my wildest dreams this was the type of stuff I would be sharing but I'm crossing my fingers I give hope to at least one person who has to face this ugly battle. Ladies, check yourselves PLEASE. If you find it sooner than later, chances are this won't be a 5 year journey for you like it has been for me. ❤️

Tracy Lynn
commented: I just want to say thank you so much! It has been almost 5 years for me to feel like myself.If anyone is thinking of doing this, DO IT! Thanks again.

SMS • 04:11 PM

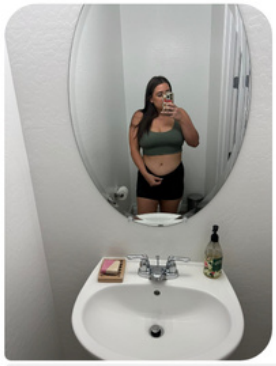

Just wanted to update, this is the first time I was able to wear a shorter sleeve at work without feeling conscious about my stretch marks.. and I'm not even healed yet! I could cry of happiness and I'm so excited to be fully healed 🤎

SMS • 11:11 AM

I KNOW!!! My husband and I have been quietly freaking out over here about how good it looks! I am definitely wearing my legs out next summer! 💃 💃 💃

Jayd Hernandez • SMS • 04:16 PM

Awww babe! 🥹 best news ever! That's so cool! I'm thrilled for you! - Jayd

Also my stretch marks are seriously like gone!! I didn't even notice them today while I was getting dressed. Insane!!

Today 5:27 PM

Hey girly! I just want to tell you I am so happy with your work. I am showing my breast more than what I have ever shown them before. I am so happy I found you and traveling all the way from Georgia to you was the best investment I've ever made in my life. You are amazing for making people feel so confident with themselves. Thank you so much ❤️❤️❤️

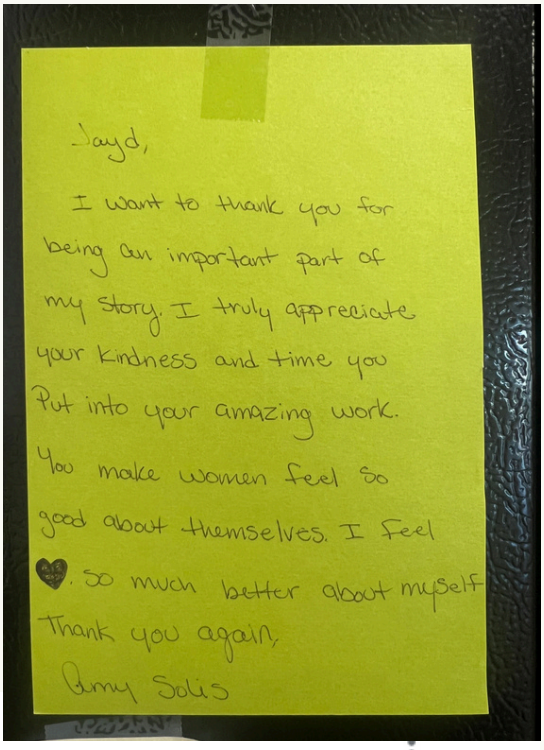

Jayd Hernandez · SMS · 07:17 AM
Looks amazing! Yayyy! Lol - Jayd

SMS · 07:22 AM
What's that phrase? Nobody's gonna know!

Jayd Hernandez · SMS · 07:23 AM
lol yessss! I'm so happy for you!

SMS · 07:53 AM
You have me my confidence back. So grateful for you

Studio Conceal is filled with artists that want to bring joy back into peoples lives. Jayd is very empathetic and skilled in her work. She takes her time to understand the clients needs and wants and creates miracles that I can attest gave me back my confidence! Thank you Jayd for your huge heart, the card, the candle, the water, the robe all of it made me feel feel at home. Jamison her assistant is very caring checking up on me and very helpful in making me comfortable during the sessions. Thank you Jamison, you are a beautiful soul. Both are amazing for anyone looking for natural looking results! xo-Suzanne

TRAINED AND TRANSFORMED:

From Zero Experience to Leaders in Paramedical Tattooing

Sam, a Mother and full-time corporate associate with zero social media experienc and tattoooing skills, now running her own paramedical business part time and loving it!

She's willing to be a model and didn't push back on me not offering an estimate. My heart is so full right now. 🥹 thank you so much for the quick advice. I have one more person that reached out asking about a scar on their arm so if they send pictures, I'll let you know. Thanks again so much.

cosmetix.ink.studio commented: I so enjoyed training with you, Jayd! You're one of my new favorite humans. I loved watching you interact with clients and how they just soaked in your energy. 🖤 Thank you for allowing me the opportunity to train with you at your beautiful studio. 13m

TRAINED AND TRANSFORMED:

From Zero Experience to Leaders in Paramedical Tattooing

From accounting professional to camouflage tattoo artist: Meet Gincy of Invisimark, who transformed from a client seeking treatment for her own stretch marks into the founder of her paramedical tattoo business!

Gincy Jacob
4 reviews

★★★★★ 4 years ago

Jayd is THEEE most sweetest and the most professional person ever! I went to her to get my stretch marks camoflauge tattooing done and she custom blend the ink and did such a great job that I went back just to **train** with her. She is so thorough with training and makes everyone feel so comfortable and at ease. Thank you for changing peoples lives!!!!

TRAINED AND TRANSFORMED:

From Zero Experience to Leaders in Paramedical Tattooing

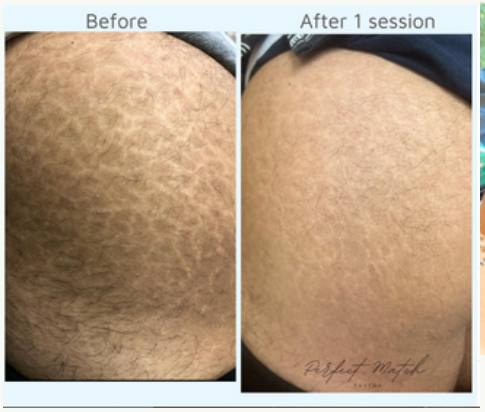

Stay-at-home mom Lily Ha, built Bare Studio from zero experience after her own stretch mark journey, now using her paramedical tattooing expertise to transform clients' confidence and lives.

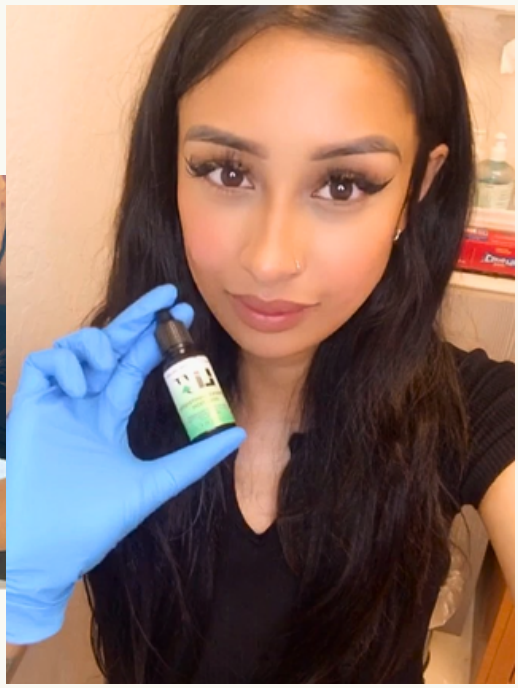

Corporate professional, Tatiana turned her artistic passion into paramedical tattooing success with zero social media presence or industry experience. A candid video of her camouflage tattooing skills exploded to 7 million views overnight, leading to features on The Ellen Show, Buzzfeed, and NY Post while transforming clients' lives. Watch her full story here.

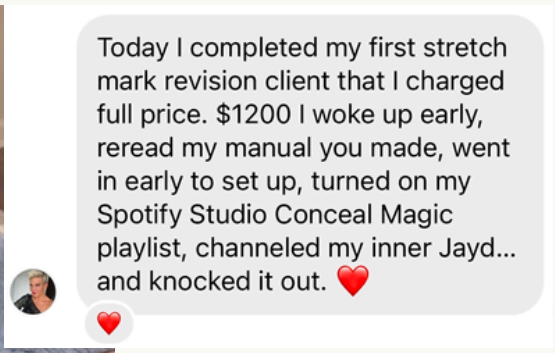

TRAINED AND TRANSFORMED:

From Nurses to Leaders in Paramedical Tattooing

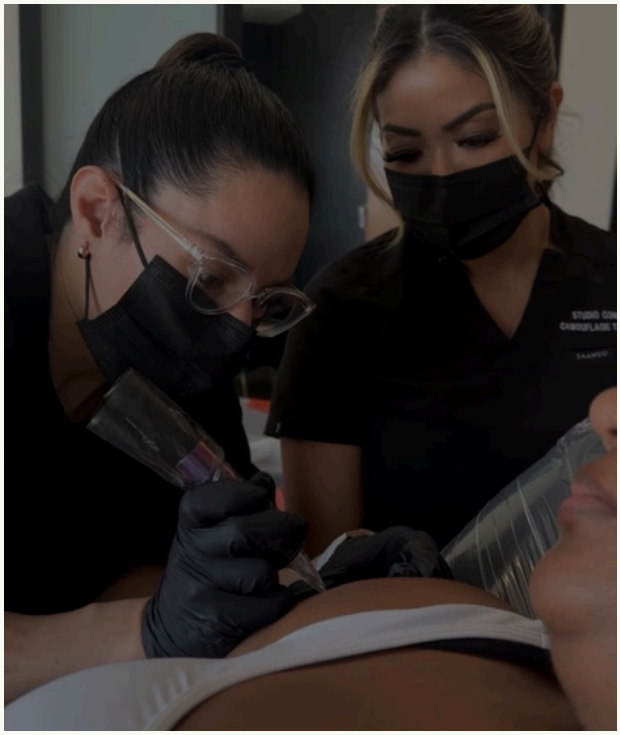

Luci expanded her medspa services by adding paramedical tattooing offering her clients something unique and deeply meaningful.

Alex, a Nurse felt burnt out after years in doctors' offices, found renewed passion and excitement after training in paramedical tattooing

alexandra_kam_pastore After years of working in various doctors offices, I have decided to make a change. Earlier this year, I made a vow to love myself, believe in myself, and live life to the fullest. For years, I have tried to find a job where I felt meaning, purpose, and the ability to transform lives. I also wanted a job that would keep me excited and intrigued day after day. I wanted to combine my artistic side with the medical field. I have heard time after time quotes like "Chase dreams because they don't chase you back." and "there is no time better than now." Today will be the 3rd day of my training in paramedical tattooing to camouflage scars and stretch marks. I have learned so much thus far with my amazing educator and mentor, Jayd. This has been extremely exciting and fascinating. When my training is complete, I know I will be walking away with knowledge and confidence to use my natural gift of love and care accompanied by my new education and tools to help others love themselves... There will be a lot more information to come, I can't wait to share more details!!!

TRAINED AND TRANSFORMED:

From Aesthetician to Leaders in Paramedical Tattooing

Meet Lexi in Austin, TX doing incredible things like concealing facelift scars, stretch marks and more within weeks of training!

🧡As a licensed Esthetician, I've always had a passion for helping people feel good about their skin.

So when I heard about paramedical scar camouflage I knew it was for me.

Now, I get to go a step further by making scars and stretch marks less noticeable.

It's so rewarding to see the impact this has on my clients' confidence

✨ but The best part?

❤️Seeing that shift when a client realizes their scars no longer define them.

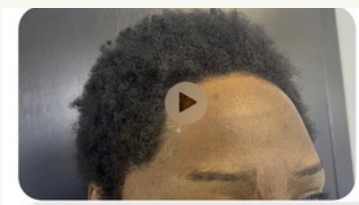

❤️That moment when they look in the mirror and smile because they finally feel free from the reminders of their past —it's powerful!

❤️Helping someone feel more confident, more comfortable, and more like themselves....

is hands down the most rewarding part of my job.

Two aestheticians from Colorado trained with us on stretch mark and scar camouflage. They were able to make back their investment in less than 2 months, with over 100 patients inquiring about this service from one "model call" ad that they performed to test out the market.

This is my first tattoo client I will be doing ! He's getting laser removal on the other side but this was the after math for him, I was so excited I just wanted to share with you! Thanks so much for educating such a valuable service to me !💞

Today 8:57 AM

Hey! I just wanted to show you a better photo of one of my patients when she came in for her touch up 😍 she's already so happy with the results!

Today 12:01 PM

Hey love...I just wanted to show you acne scarring needling I did on my friend (scars are 20 yrs old) this was 4 days after the first session...will do the second session soon...I'll keep you updated...thank you so much for helping me achieve this😘😘😘

We agreed to do everything, excluding her tummy tuck scar, for $5,285 (including tax) 😊

Amazing!

Delivered

Thanks you! I'm really happy, I feel like I've found passion for something again between this and working on scars and stretch marks. It's the best feeling ❤️

TRAINED AND TRANSFORMED:

WHAT OTHER STUDENTS ARE SAYING...

I forgot to mention yesterday that I had an interview at the hospital in Puerto Vallarta area. I went in to get some health care and told them about what I do and the doctor asked if I would come in on a separate day and share more. I met with his head nurse and she says they are getting ready to move into a bigger office and there is a little space and they want me to consider coming back on a regular basis. I love this! This is my dream life. Back and forth to my favorite beach town. You never know. 🙏❤️

Omgggggoodness! This is HUGE - yessss! I'm thrilled for you! Congrats girl!

Hi Jayd! How are you? I had today my first cliënt! And it went very good. She didn't had much pain. I really love doing this. Yesterday I've got the keys to my own place so next week i'm gonna start with the floor and things like that

3:40 PM

I have always worked in the medical field and have been looking for years to find the best of both worlds when it comes to beauty and helping others.

Hi Jayd, I have viewed the coaching call. Very good topics were discussed. Thanks for answering my question. I will definitely take it with me in my journey. I really like how you take the time to give me and fellow students tips and tricks. I'm glad I made the choice to follow the training with you. Really thanks again for everything and especially the trust in me ❤️❤️

2:32 AM

Aww you're welcome girl, you have this. Trust in yourself 🤍 keep me posted on anything else you need even if it's a little encouragement or motivation on your entrepreneurial journey

5:23 AM

Hey Jayd,
We already wish you and your family a happy new year!

We also want to thank you again for all we learned from you! We have been open for 1 week now and received our first response today. It is very exciting now for us!

Greetings Tom, Jessie & Reshum
